

Mr. Hot Dog

- Control of Substances Hazardous to Health (COSHH)

Responsible Person: David Cliff

Business: Mr. Hot Dog (T/A)

Address: 44 The Old Village, York YO32 9RB

Applicable to: All indoor and outdoor events in 2025

Date: 15 May 2025

1. Soapy Water

Use: General surface cleaning

Hazard Classification: Non-hazardous

Control Measures: Used with cloths. No PPE required.

2. CleanPro Disinfectant Spray

Use: Food contact surface sanitising

Hazard Classification: Irritant (if ingested or in contact with eyes)

Control Measures: Used as per label instructions. Stored in the original container. Avoid inhalation or eye contact.

3. CleanPro Probe Wipes

Use: Cleaning temperature probe

Hazard Classification: Flammable, Irritant

Control Measures: Use with care. Keep away from heat sources. Close the lid after use.

4. Antibacterial Hand Sanitiser

Use: Staff hand hygiene

Hazard Classification: Flammable, Irritant

Control Measures: Dispensed in small amounts. Keep away from open flames.

5. Propane Gas (19kg)

Use: Fuel for cooking

Hazard Classification: Highly flammable

Control Measures: Stored in a locked, ventilated cage. Leak checks performed with spray. Emergency shut-off valve clearly marked and accessible. Equipment assessed annually.

Storage & Handling

- All substances are stored in a latched steel cupboard under the sink, clearly labelled and in original containers.
- No PPE is required due to the low-risk nature of the products used. Good hygiene practices are followed.
- Used cloths, wipes, and blue roll are disposed of in a lidded plastic bin outside the unit and removed from site after service.
- Safety Data Sheets (SDS) are held for all relevant substances and are available on request.

Signed: *David Cliff*
